

Introducing

clearpath®

## View Your Own Slides Digitally

Clearpath 3.0 is a revolutionary software that allows you to view slides digitally with a virtual connection to our state of the art laboratory for ancillary testing, consults and support.

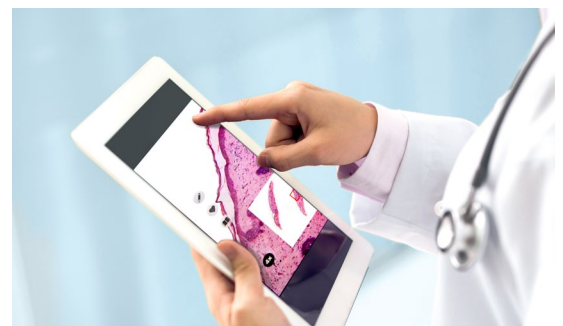

### Key Benefits

- Fast turnaround of digital images (24-48 hours)
- Glass slides always follow for microscope confirmation
- Ability to zoom and measure
- Access to all submitted case information
- Custom templates for report diagnoses
- Biopsy logbook
- Create, review and print reports
- Interface results to your EHR
- Clear and crisp images on any tablet
- Opportunity to enhance patient interaction
- Access to case information anywhere, anytime

Clearpath is more than just software...  
It is a virtual connection to your  
dermatopathology laboratory

From the simple touch of a button get  
immediate access to our lab to:

- Request an expert consultation
- Revert any case back to our  
laboratory for a global read
- Request recuts, special stains, or  
additional digital images

## How it Works

- Specimens are sent to DermPath Lab of Central States (DLCS) for processing.
- A digital whole slide image is created and uploaded to your secure account within 24-48 hours.
- View the slide image with touch enabled magnification and superior panning capability.
- Special stains, recuts, consults and reports are available in the software.
- All digital images are stored safely in the cloud for easy access and retrieval.
- When the digital image is prepared, glass slides are sent to your CLIA certified office for microscope confirmation.

## Getting Started

Clearpath has created a quick and simple process to help you review your own cases. Our support staff can schedule in-office demonstrations of Clearpath 3.0 and outline the onboarding process.

## Suggested Equipment

- Dell Tablet, Microsoft Surface or iPad Pro
- 13-21 inch monitors with touch enabled screens for Clearpath 3.0 use

## Our Laboratory

DermPath Lab of Central States (DLCS) is an independent dermatopathology laboratory that has served dermatologists nationwide for over 30 years. Our team of 7 board-certified dermatopathologists, sales personnel and customer service staff will work with your office to provide the best in patient care. Our physicians, technicians and transcription staff operate 7 days a week. Our team of board-certified dermatopathologists have decades of experience reading the most complex cases in dermatology. Dermatologists will have rapid and direct access to our dermatopathologists for consults or full case reads. Overnight courier services are customized to fit your office hours and needs. DLCS is an approved provider for the majority of insurance carriers and is dedicated to responding to the constant changes in the payer environment to meet the needs of your patients. Our state of the art processing and in-house molecular testing provide the highest quality dermatopathology services available. We are committed to elevating patient care through quality, efficient service, and education.
